

Meadowhead Sixth Form – Making Your Choice

As a Sixth Form student, you should choose a set of subjects (usually 3) that are coherent and make sense when studied together. You should be able to explain the reasons behind your chosen subjects at your Sixth Form interview. Choosing an unusual set of subjects might make university applications more difficult and may lead to clashes on your timetable. The table below should help you choose sensible sets of subjects. Other combinations are possible but you should think very carefully about your motivations for choosing them.

Aspiration for career or further study	Suggested subjects (usually 3)
Medicine, Veterinary and Dentistry	Chemistry with at least one of Maths, Physics, Biology; sometimes another academic subject
Nursing, Midwifery and Physiotherapy	Health and Social Care, Biology, Psychology, English Language
Education, Children and Families	Health and Social Care, Biology, Sport, English Language, Psychology, Sociology; chosen subject specialism
Humanities and Social Sciences	Economics, English Literature, Geography, History, Sociology, Performing Arts
Law	History, English Literature, Languages, Maths, Sociology
Business, Marketing and Management	English Language, Business, Economics, ICT
Computing and Programming	Maths, ICT, Computer Science, Physics, Business
Maths and Engineering	Computer Science, Maths, Further Maths, Physics, Product Design
Sciences	Chemistry, Biology, Physics, Forensics, Computer Science, Maths, Psychology
Journalism and Writing	Sport, English Literature, English Language, History, Sociology
Art, Creativity and Performance	Art, Craft and Design, Art Textiles, English Literature, Performing Arts, Product Design, Music
Sport & Physiotherapy	Sport, Biology, English Language, Psychology
Linguistics and Languages	English Language, French, Spanish, German

The Russell Group (made up of 24 of the UK's leading universities) offers guidance on A Level subject choice through www.informedchoices.ac.uk
