

Component 2 Classification of Skills

Classifying skills on a continuum

- You need to classify skills on a continuum!
- A continuum is a line that goes between two extremes!
- We can put information on the continuum!

We need to know three continua (continua = more than 1 continuum)

Open and closed skills

	Open Skills	Closed Skills
Description	Open skills ARE affected by their surrounding environment. Extreme open skills need to be constantly adapted by the performer as situations change around them. Conditions are unstable and UNLIKELY to be the same each time a skill is performed	Closed skills are NOT affected by their surrounding environment. Extreme closed skills don't need to be constantly adapted by the performer as situations around them are stable. Conditions are LIKELY to be the same each time a skill is performed
