

# Full Steam Ahead End of project Student Survey

July 2020

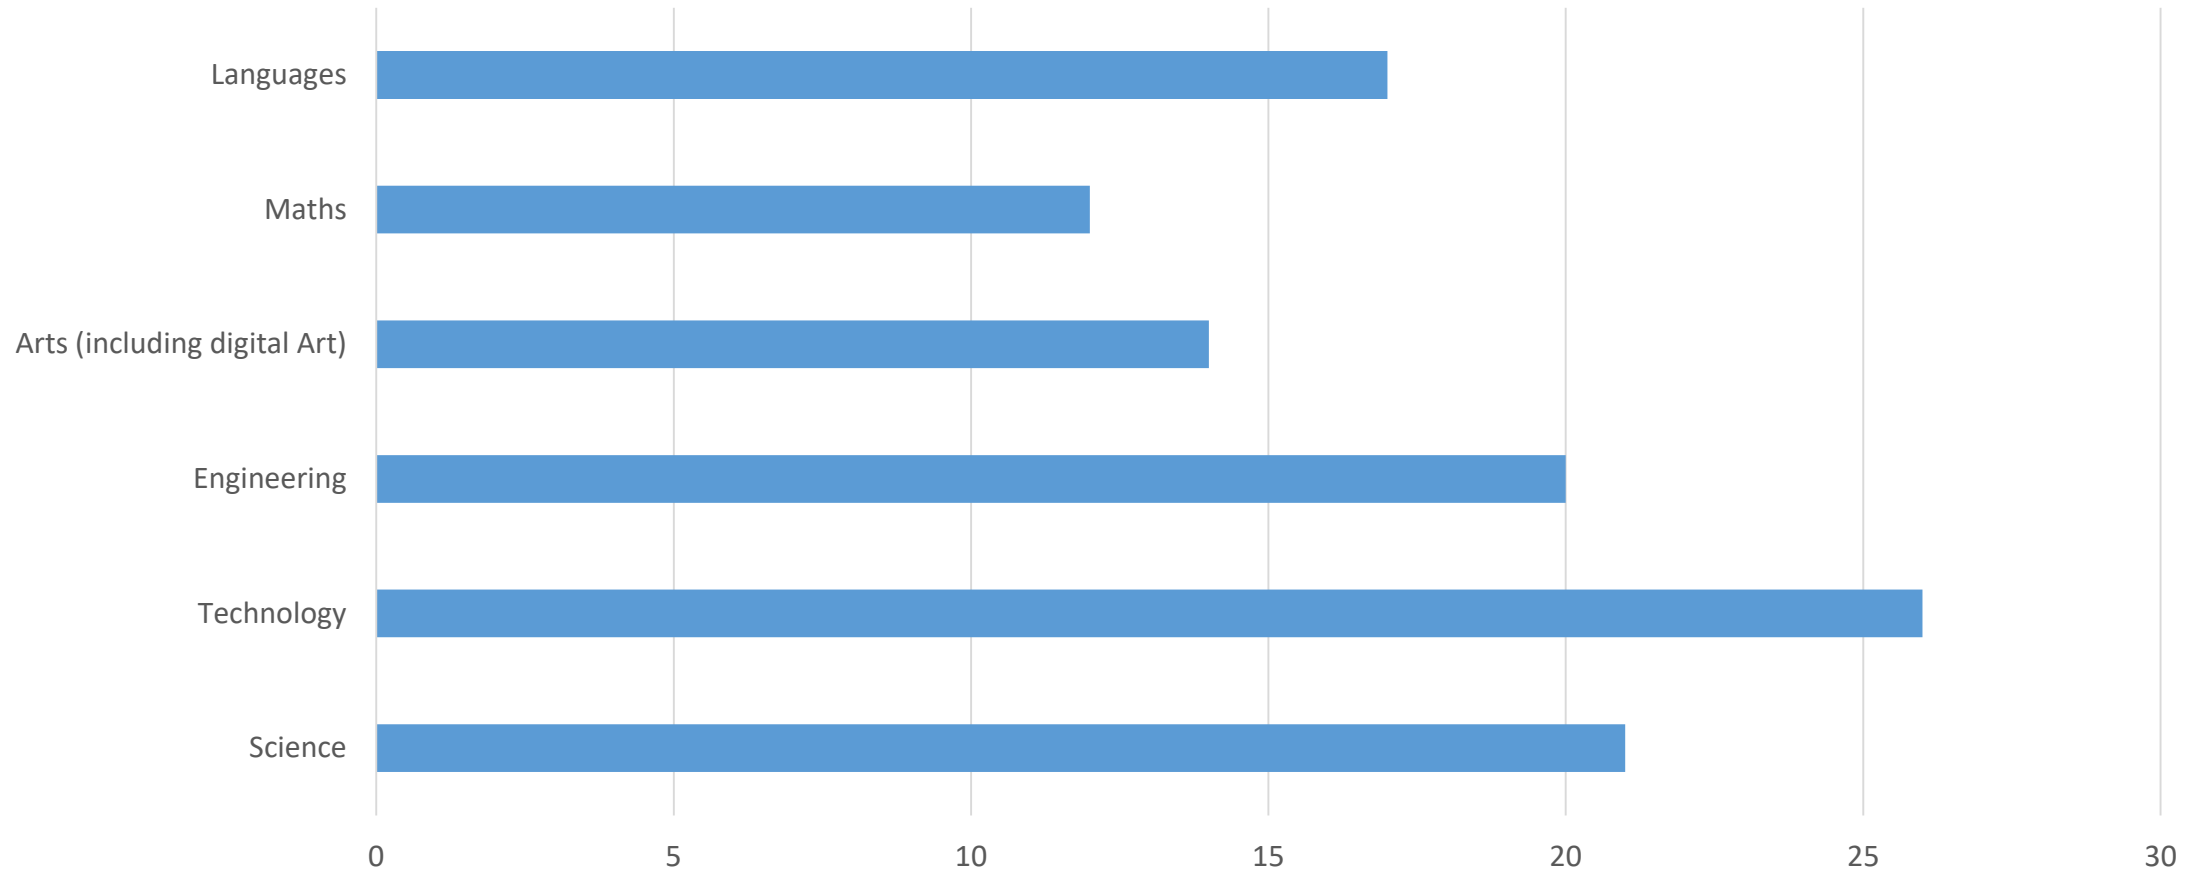

**Gymnasium  
auf der  
Karthause**

ELITESCHULE DES SPORTS

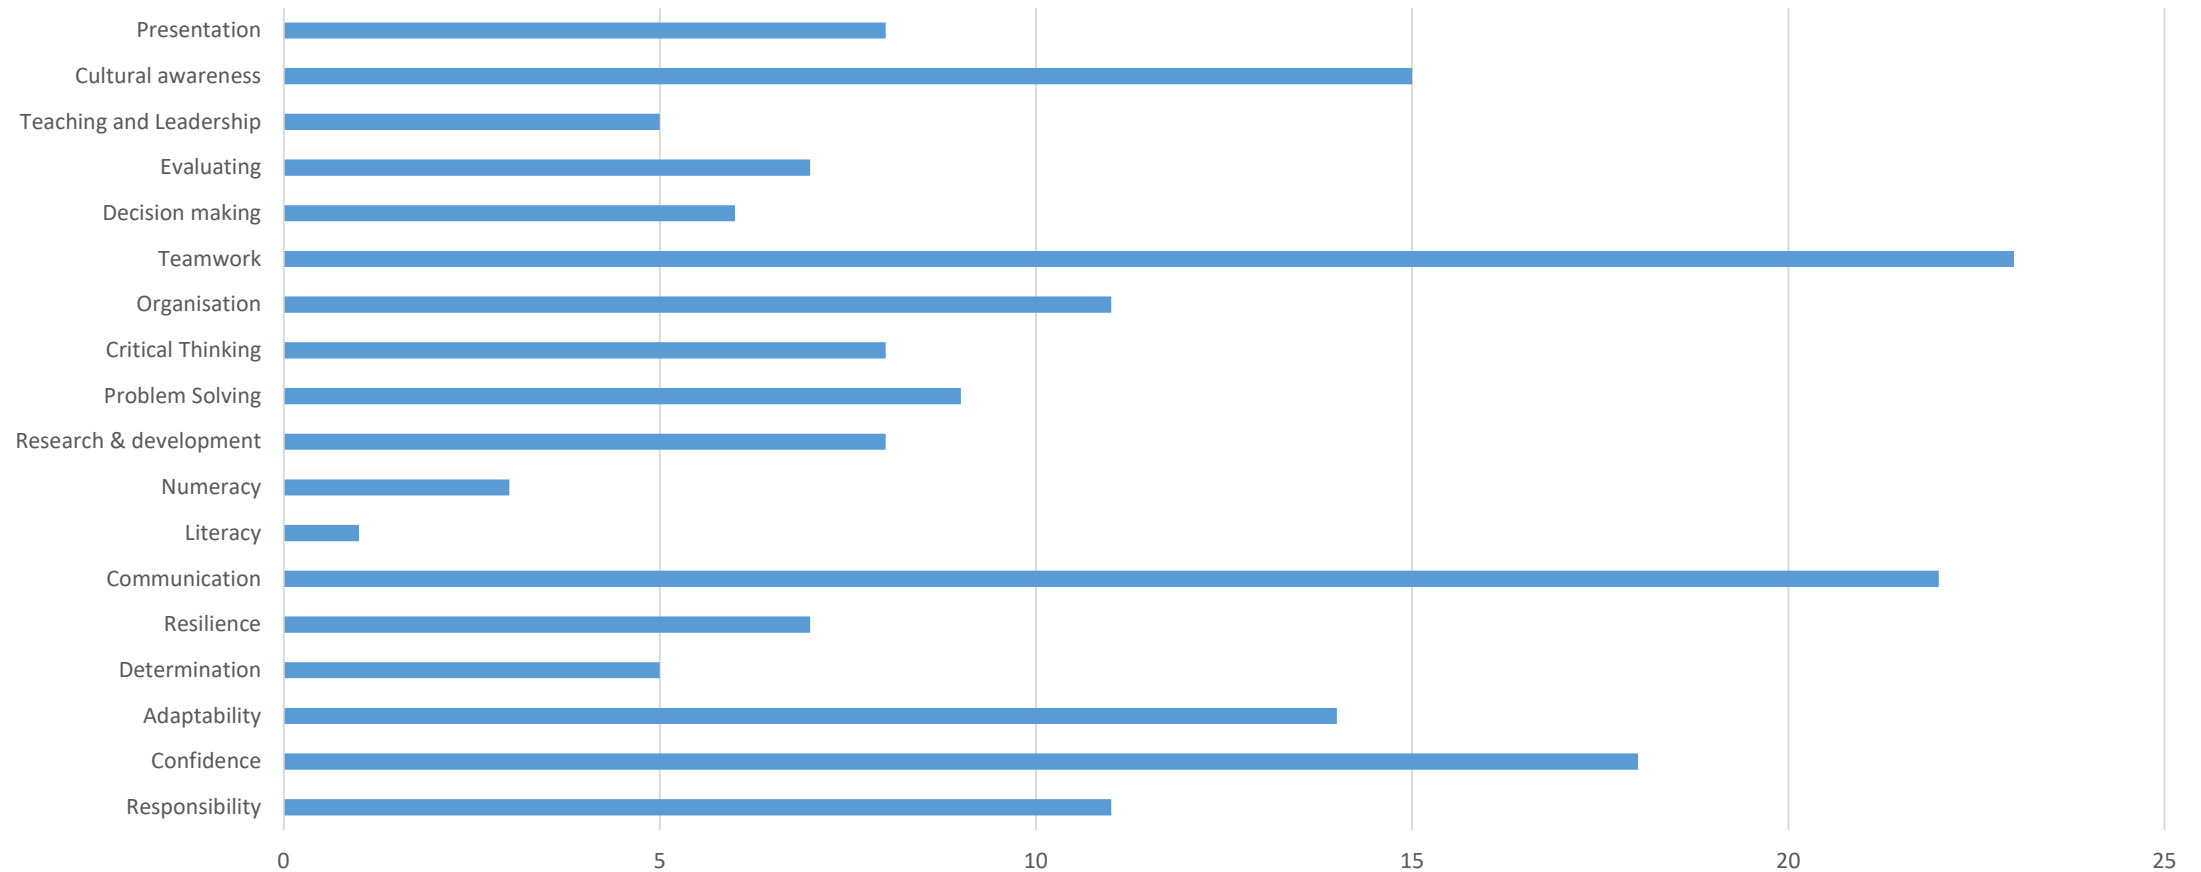

Meadowhead School  
Academy Trust

# Q1. Please select the STEAM subject/s you have learnt more about during this project

## Q2. Which 5 skills you have you most developed during the project?

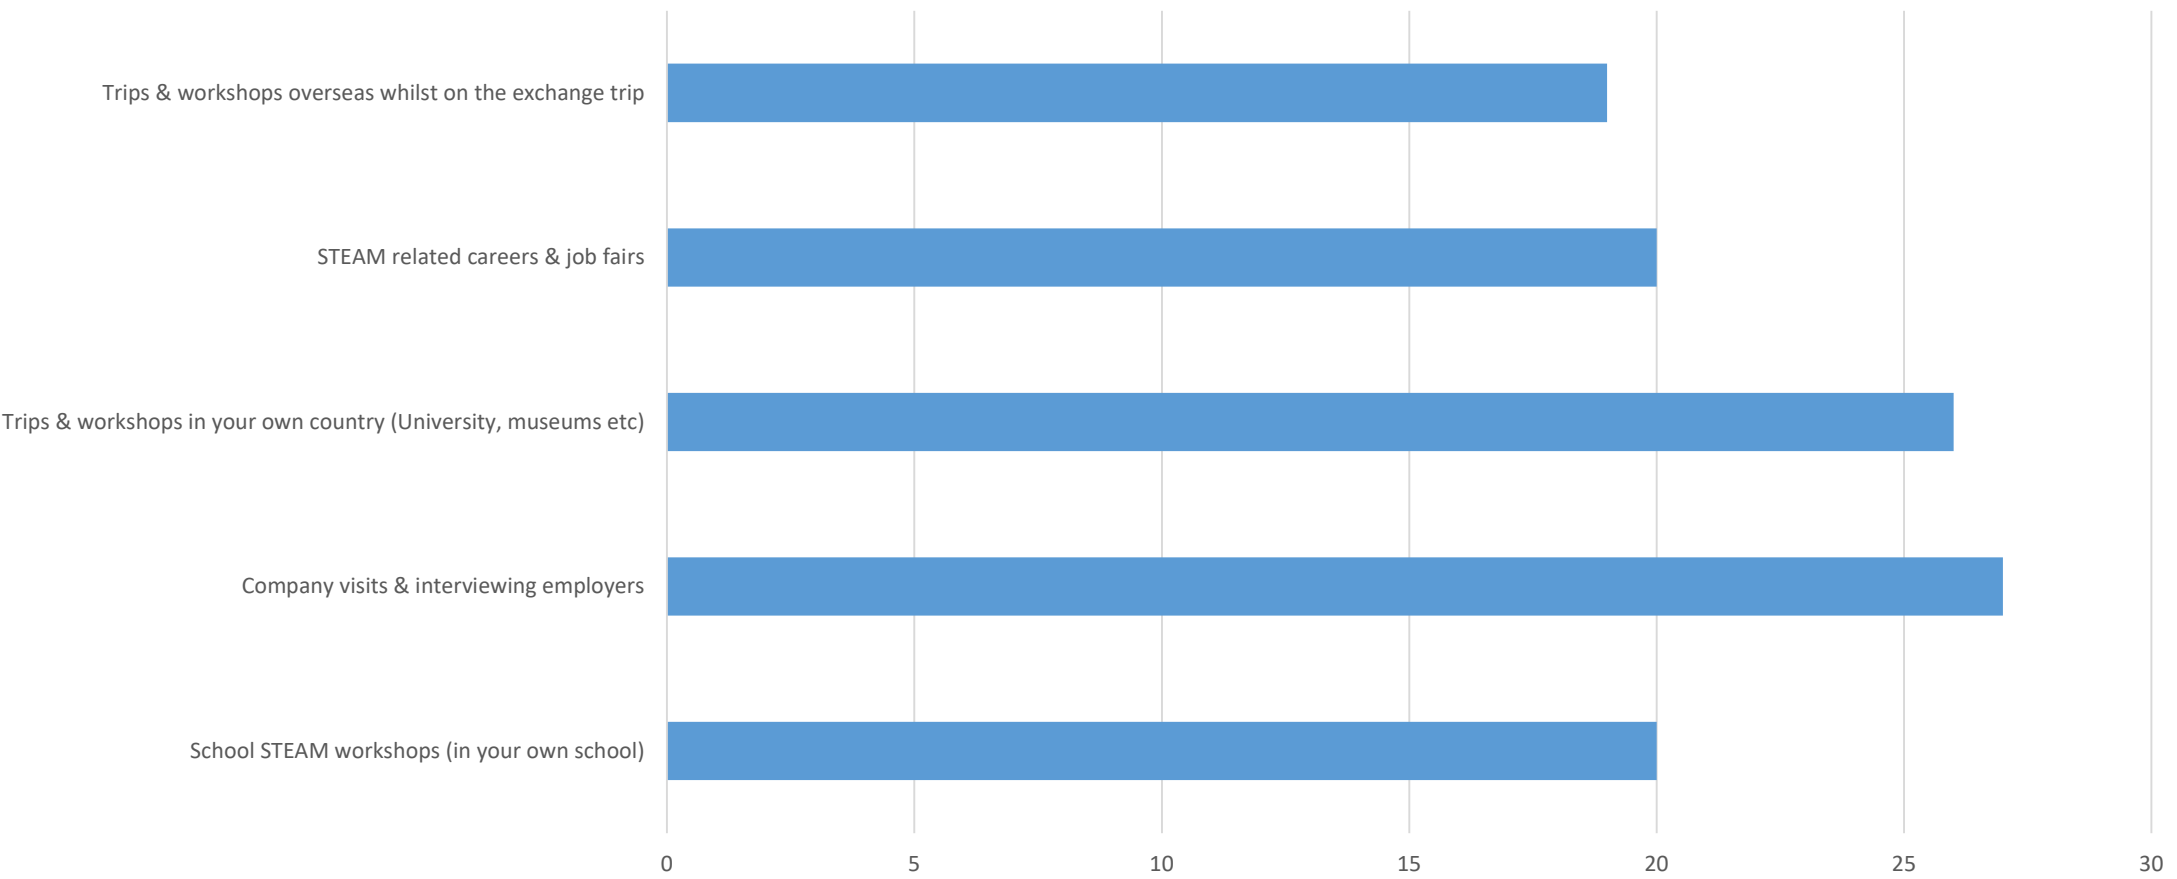

Q3. Describe your experience of this ERASMUS project in 1 word

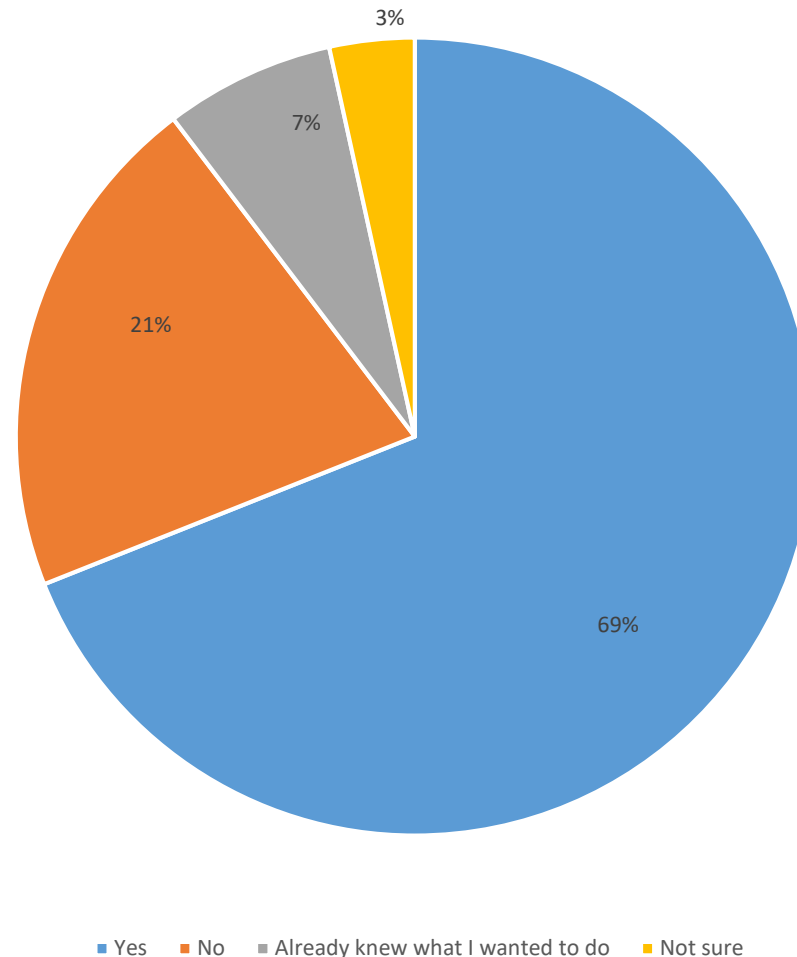

A word cloud of responses to the question 'Describe your experience of this ERASMUS project in 1 word'. The words are arranged in a circular pattern around a central point. The words are: 'Diverse' (large, brown), 'Interesting' (large, purple), 'Educational' (large, purple), 'Eye-opening' (large, purple), 'Brilliant' (large, brown), 'Fun' (large, purple), 'Amazing' (medium, red), 'Full of Experiences' (medium, brown), 'Varied' (medium, brown), 'Opportunistic' (medium, purple, rotated), 'Fantastic' (medium, brown, rotated), 'Good' (medium, purple), 'Fascinating' (medium, brown), 'Extraordinary' (medium, red), 'Thought-provoking' (medium, red), 'Incredible' (medium, red), 'Discovery' (medium, purple), 'Rewarding' (medium, red), 'Informative' (medium, brown), 'Exciting' (medium, red), 'Irreplaceable' (medium, brown, rotated), 'Openness' (medium, brown), and 'Unforgettable' (medium, brown). The words are in various colors including purple, brown, red, and orange.

Discovery Diverse Rewarding  
Incredible Interesting Informative  
Thought-provoking Educational Exciting  
Extraordinary Eye-opening Irreplaceable Openness  
Fascinating Unforgettable  
Good Brilliant  
Fantastic Fun Astonishing  
Varied Opportunistic Full of Experiences Amazing

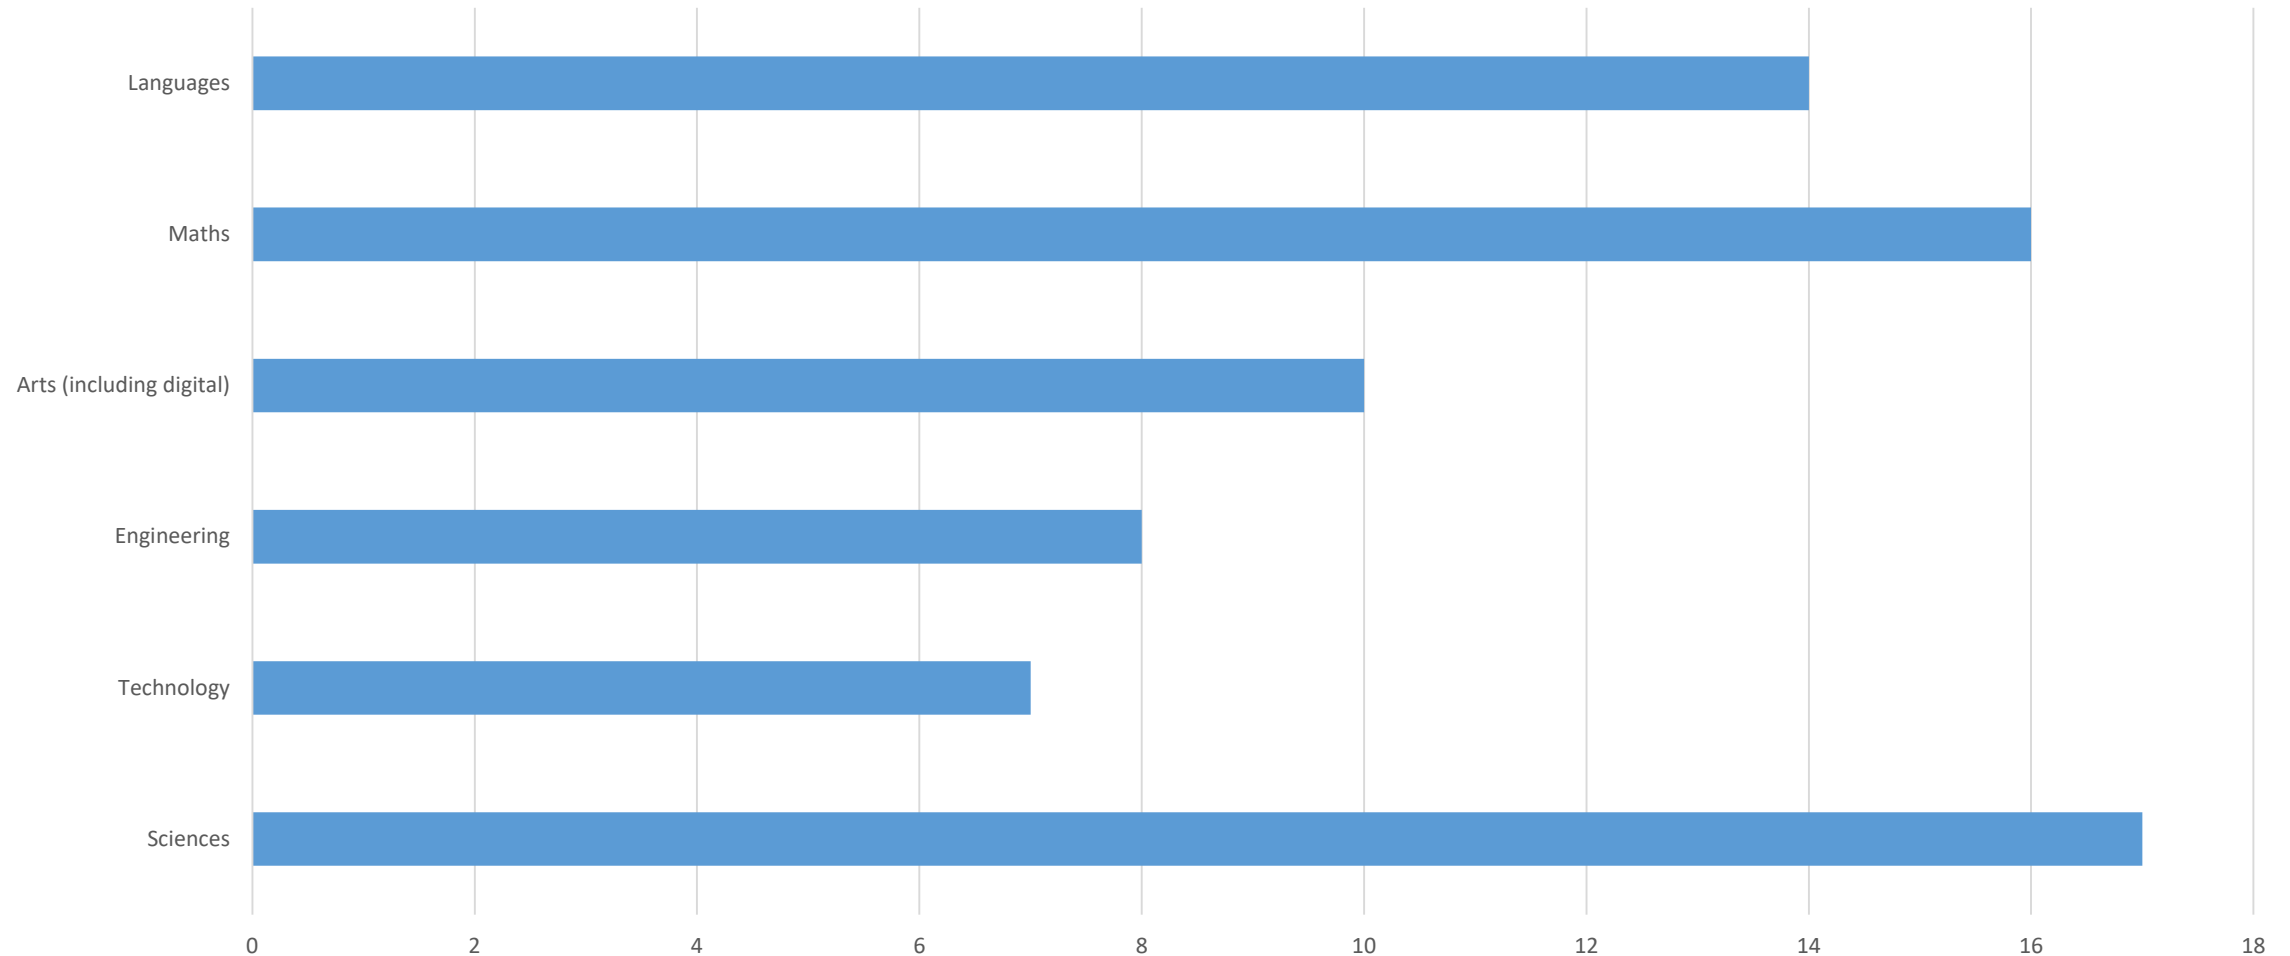

# Q4. Which activities have you been involved in over the last 3 years of the project which have made you understand more about STEAM jobs/careers?

Q5. Has this project helped you to make your own education or career choices (eg. choosing your A-Level, or bachillerato subjects, deciding on your career ideas etc)?

# Q6. Which of the STEAM subjects will you continue to study in the future?

# Q7. What advice would you give to a younger student considering taking part in an ERASMUS project next year?

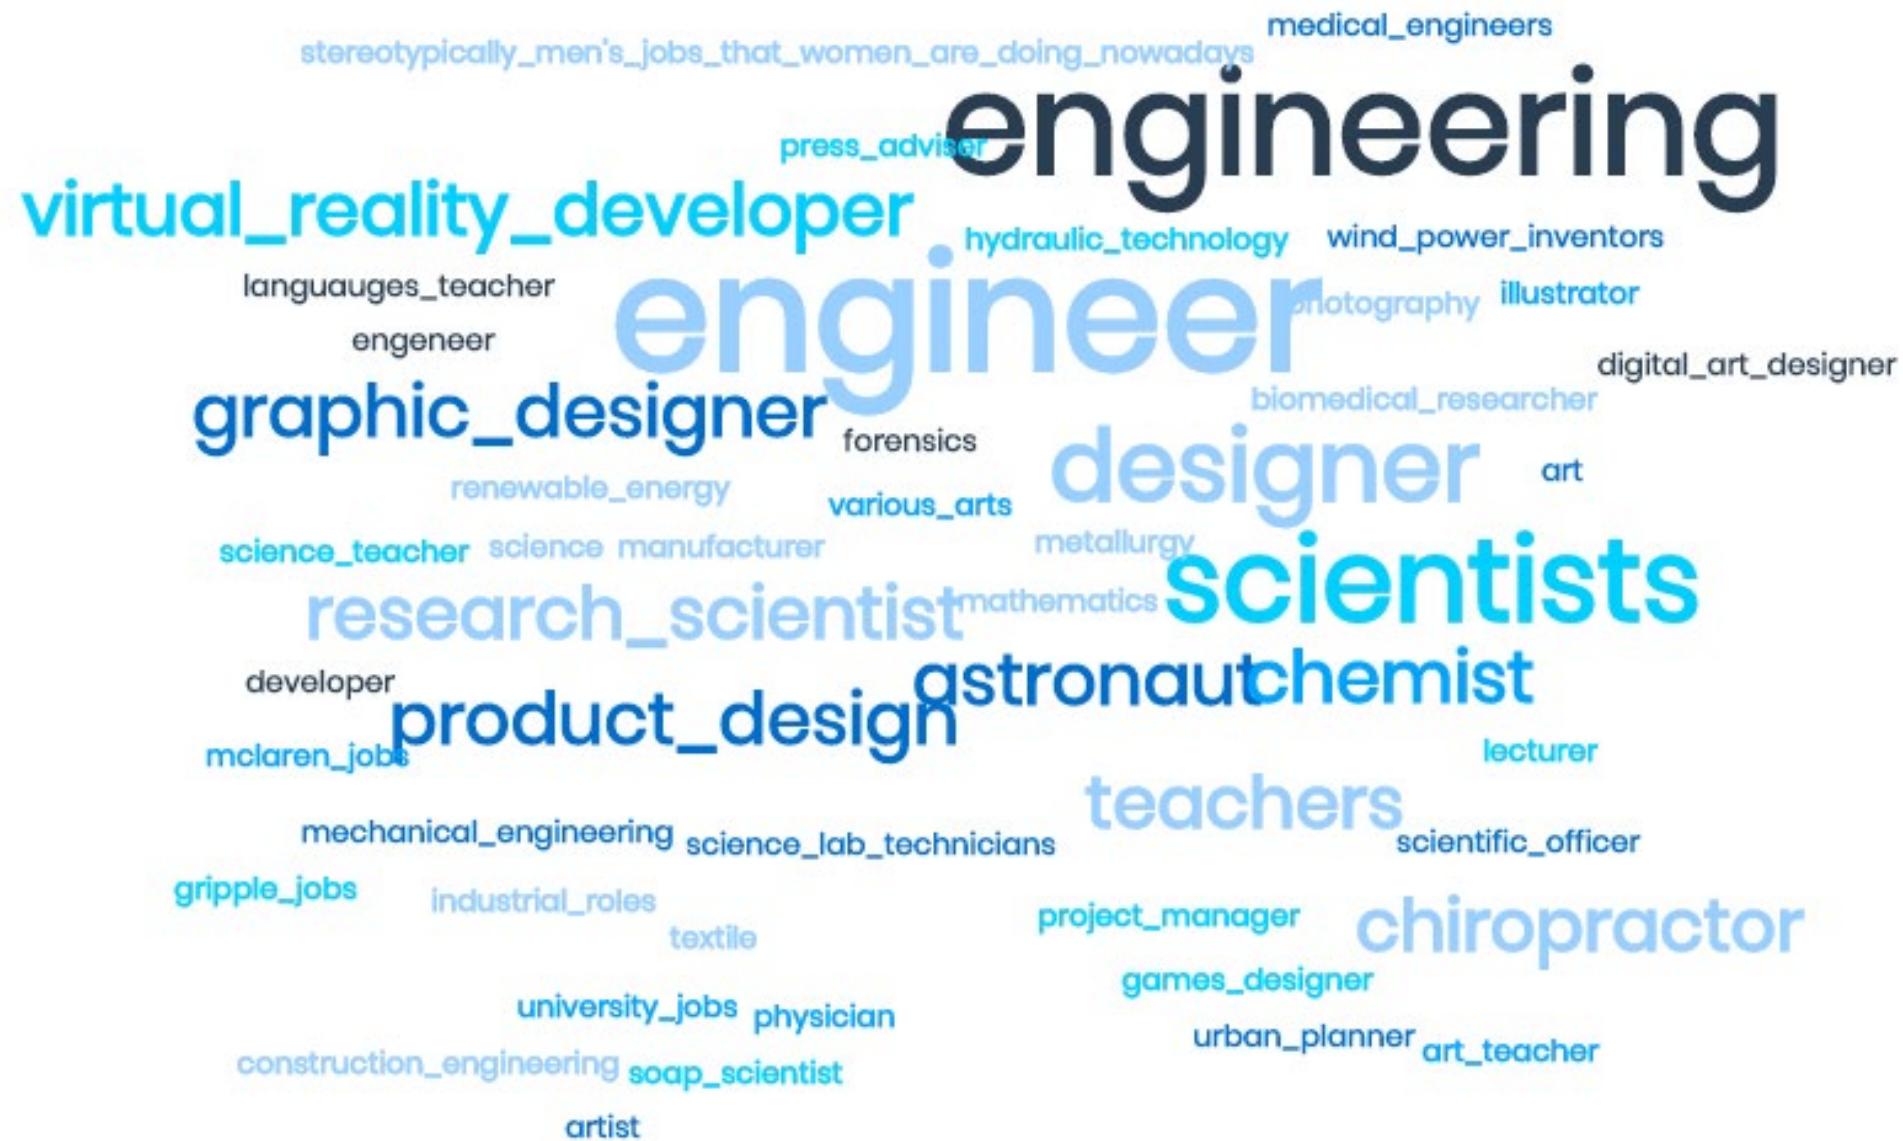

- Just take part it's cool
- Be open for new experiences
- Students need to be aware that you need to spend a lot of time on Erasmus and the whole project! It really helps you when you want to work in a STEAM subject later and when you are motivated to learn more besides school!
- Speak Englisch. Be open.
- You should to be interested in the STEAM subjects. It's a great experience to work with students from another country
- If it is a subject related project (like steam) you should be interested in this subject but I think even if the subject is not particularly interesting for you, it's a great way to get to know people from different countries and the different working environments.
- The job interview is fun-you'll get to know someone who works in an interesting job.
- Try everything that is thrown at you and always believe that you can do it
- To take every opportunity they can get, as they never know what will or won't be beneficial
- That they should go for as many of the opportunities as they can as it's a once in a lifetime experience and it will introduce them to new friends and lots of future possibilities and give them an insight into the working world.
- I highly would recommend it because it is a great and valuable experience that can help with your choice of career.
- Commit to ERASMUS because it's a great opportunity!
- The project has been a wonderful experience for me, and is an opportunity I would recommend to anybody
- Be open and enjoy the exchange because it's a chance you will never have again.
- It's a fun way to learn interesting new things and get to know new people from all over the world. Even if some workshops or trips at first don't seem that intriguing, you'll always have a moment or a fact that is really nice or interesting. And in the end it was worth it because you learn or get to see at least one thing which you otherwise never would have seen or learned. Plus it's always worth taking part in the project, because you get to meet new people and form friendships which you otherwise wouldn't have!

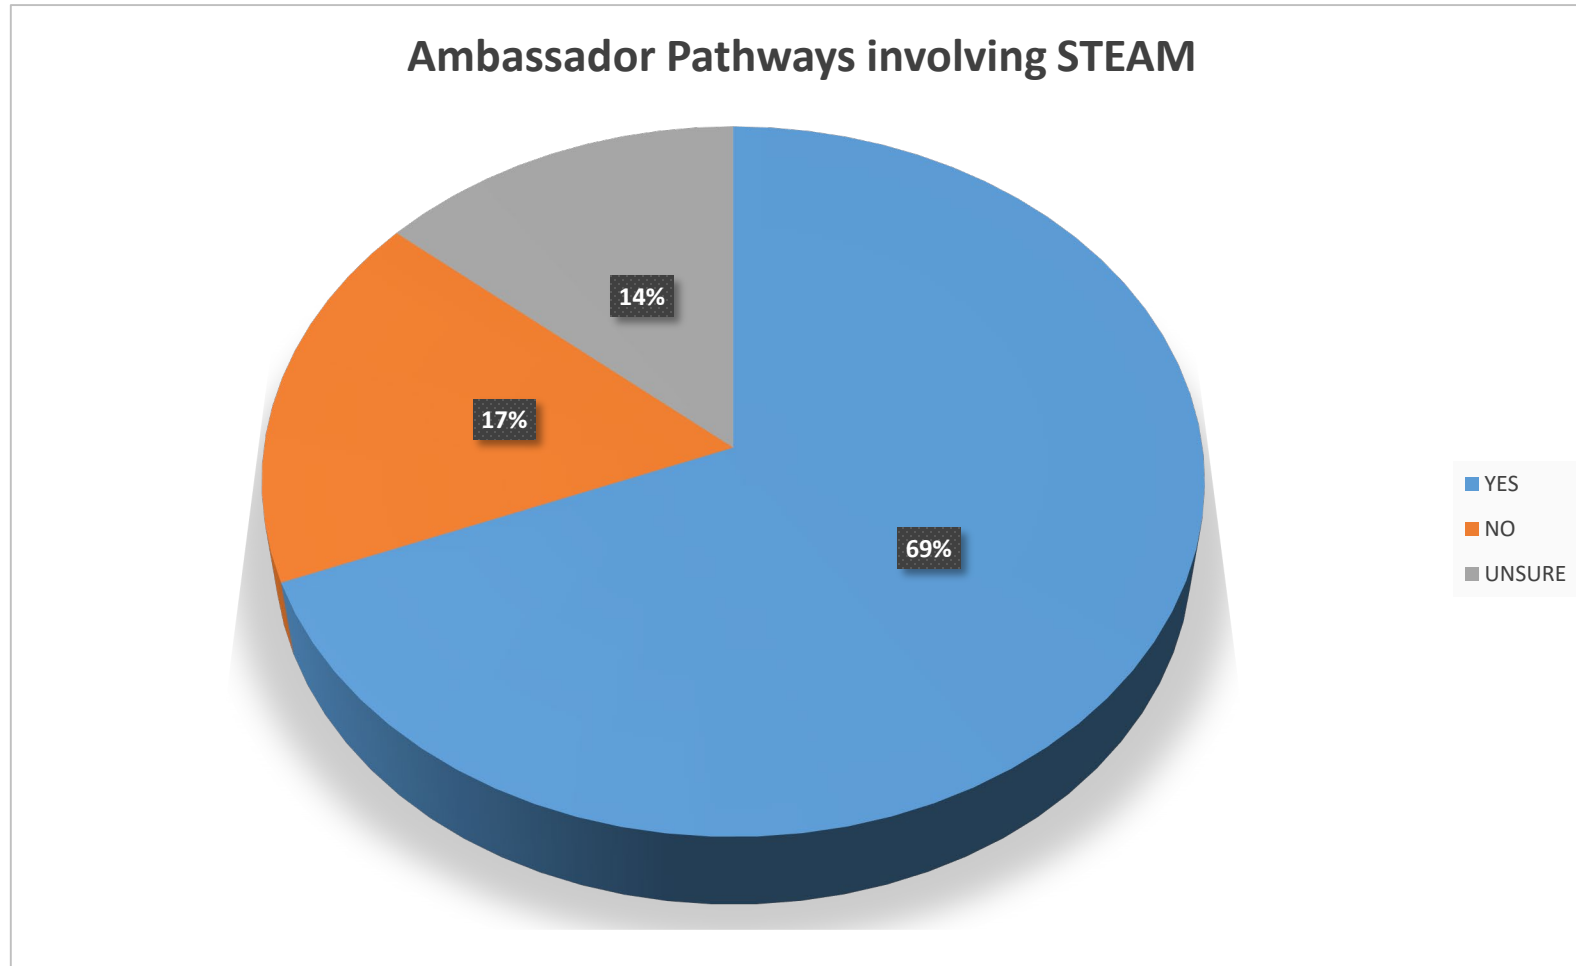

# Q7. Continued...

- Take all the opportunities as you will learn from everything and make lots of friends along the way.
- Take this opportunity to find out as much as possible about the world of work and how different workplaces function to decide where you would like to work in the future.
- Definitely take part, I've really enjoyed it even though I was nervous at first I'm so glad I took part.
- Go for it. Join in all the activities even if you don't think that you will enjoy it, you might. But, you will definitely learn something new and valuable.
- Even if you're only interested or curious in one of the steam programs e.g. Art, still join steam because who knows you might get to love the other ones
- If you would like to go into any job in the steam sectors the project is very good and covers a wide range of careers and skills needed for these areas, especially art and sciences.
- Only take part if you are going to be 100% committed
- Take all the opportunities that are given to you, and try to enjoy it all.
- I would tell him/her that it is really worth doing it! The experiences and contacts which you make during the project are for one in a lifetime, but I would as well point out that you need a lot of interest and excitement to really enjoy everything.
- It will provide you with a lot of experience in the world of work in STEAM based project. The Spanish exchange was the most beneficial.
- it is a great opportunity to help expand your skill set and generally a great experience
- Make sure to make the most of it - ask as many questions as you can and try to similarly learn as much as you can. It is an invaluable experience that can really help you to decide what careers you want to pursue in the future. But also make sure to enjoy yourself.
- I would advise them to join because it's an amazing opportunity to travel to another country and learn more about the steam fields
- Go for it and take opportunities
- I would advise for younger students to make sure they listen and remember everything that is taught within the project as although it may not seem important right then, it becomes incredibly important and useful post 16.

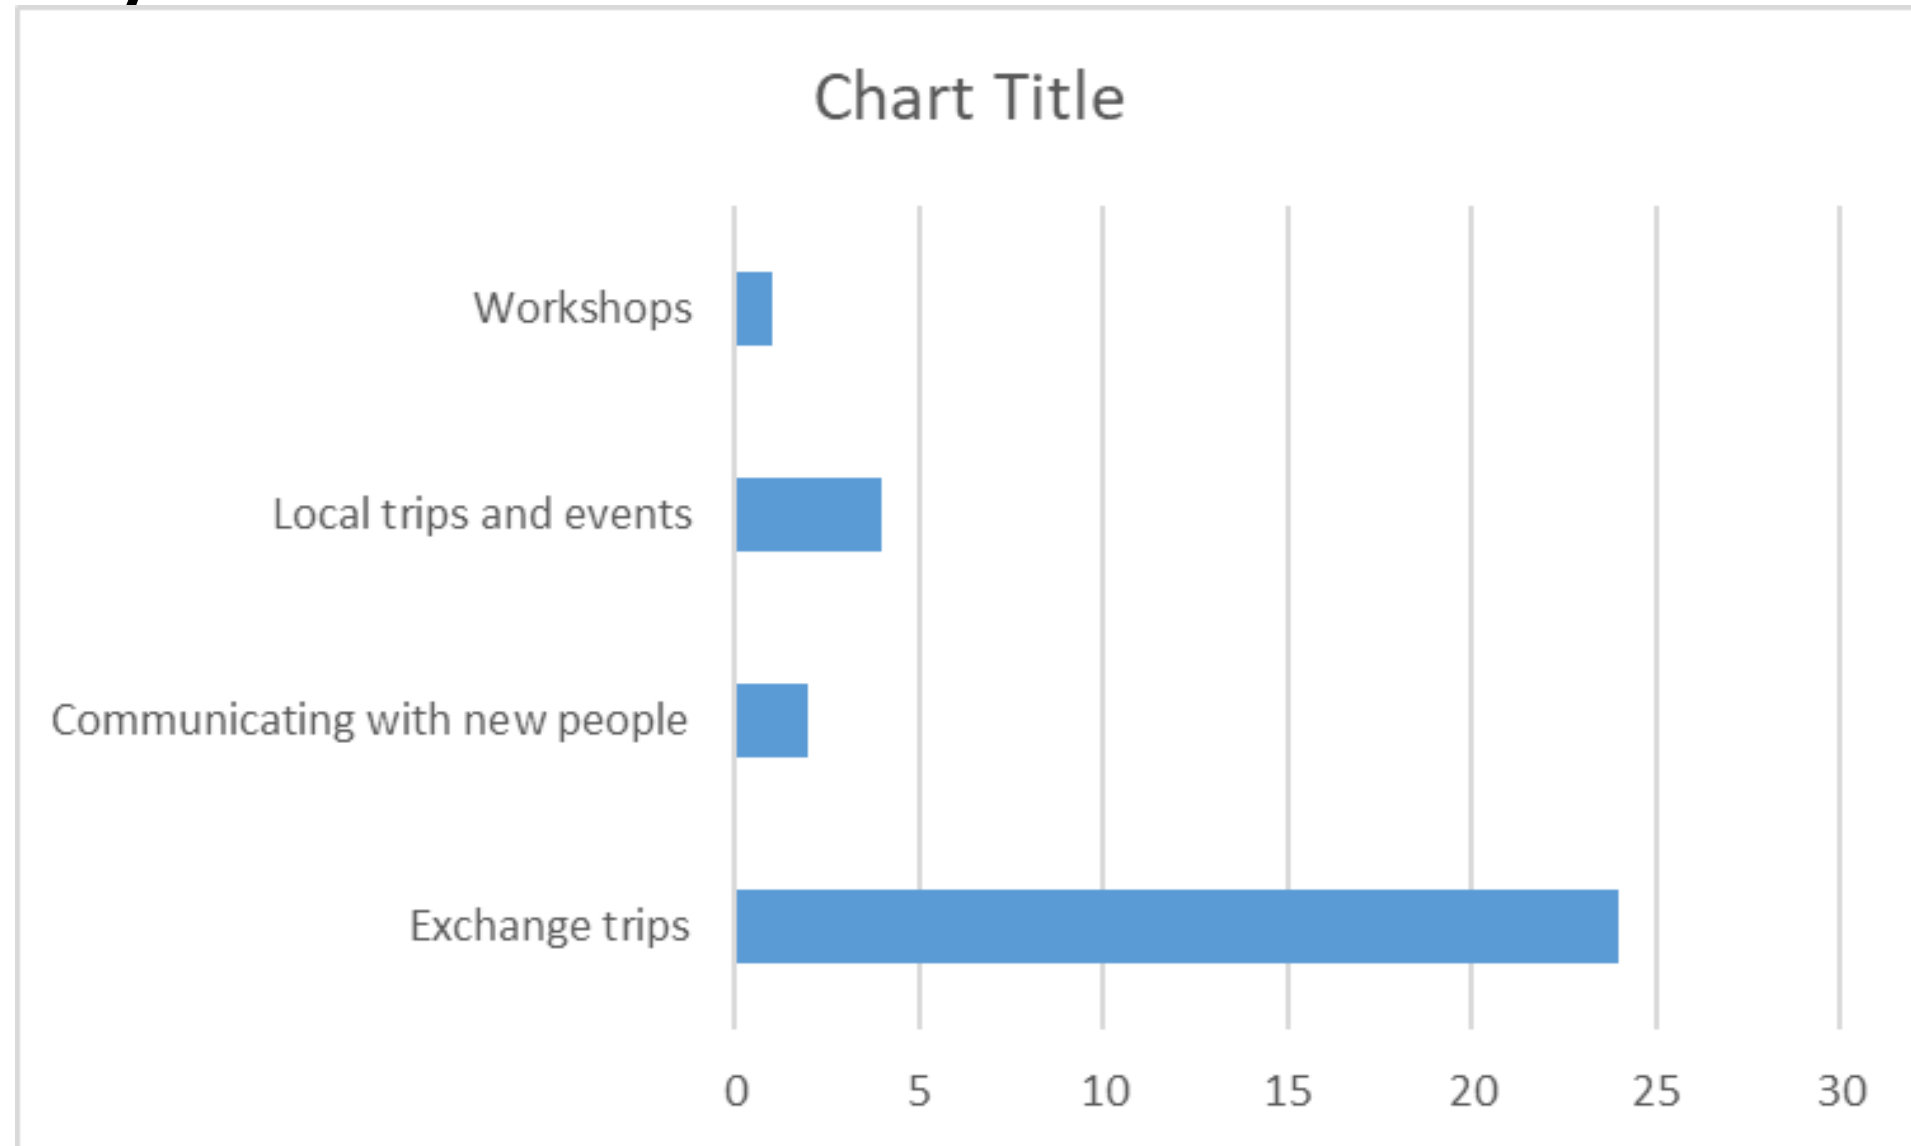

Q8. List some of the jobs and careers you have developed awareness of as a result of this project

# Q9. Do your future plans for university or employment relate to STEAM?

Q10. What has been your favourite aspect of the project and why?

# Q10. Continued...Why was the exchange your favourite aspect?

- Meeting other people and learning about their culture
- Because I could learn a lot about the Spanish culture
- Because I loved the experience living in another country and learning about the culture and meet new people.
- Getting to know a different culture and new way of working and their working environment.
- Making new friends
- The ability to experience new environments cannot be replaced.
- Travelling and seeing how it works in different countries. Meeting new people from abroad and from my own school.
- Meeting other STEAM ambassador from different countries.
- Going to Spain was an amazing bonding opportunity with friends and new friends.
- I met a lot of new people whilst in Germany, and I felt I had learned a great deal.
- Meeting new People and visiting new places because they are memories which stay forever
- Because the people were really nice and it was fun spending time with them.
- Because we met lots of new people and it helped me to become more independent
- Because I enjoyed meeting new people in Germany
- Travelling to Spain, going on trips, team working
- The Spanish exchange put me out of my comfort zone and improved my confidence
- It helped demonstrate different aspects of other cultures and also helped with many different aspects of my career
- It has allowed me to experience STEAM industries in other countries and to make friendships that will last a long time
- I thoroughly enjoyed and benefitted from the trip
- I met new people and became friends with them
- Going to Germany and learning about the culture, the language and the different types of jobs that everyone wants to do in the future was an amazing experience that has been extremely useful in my decisions post 16. I also met some wonderful people who I'd like to keep in contact with for a long time.
- We met lots of people and I gained a lot of confidence.

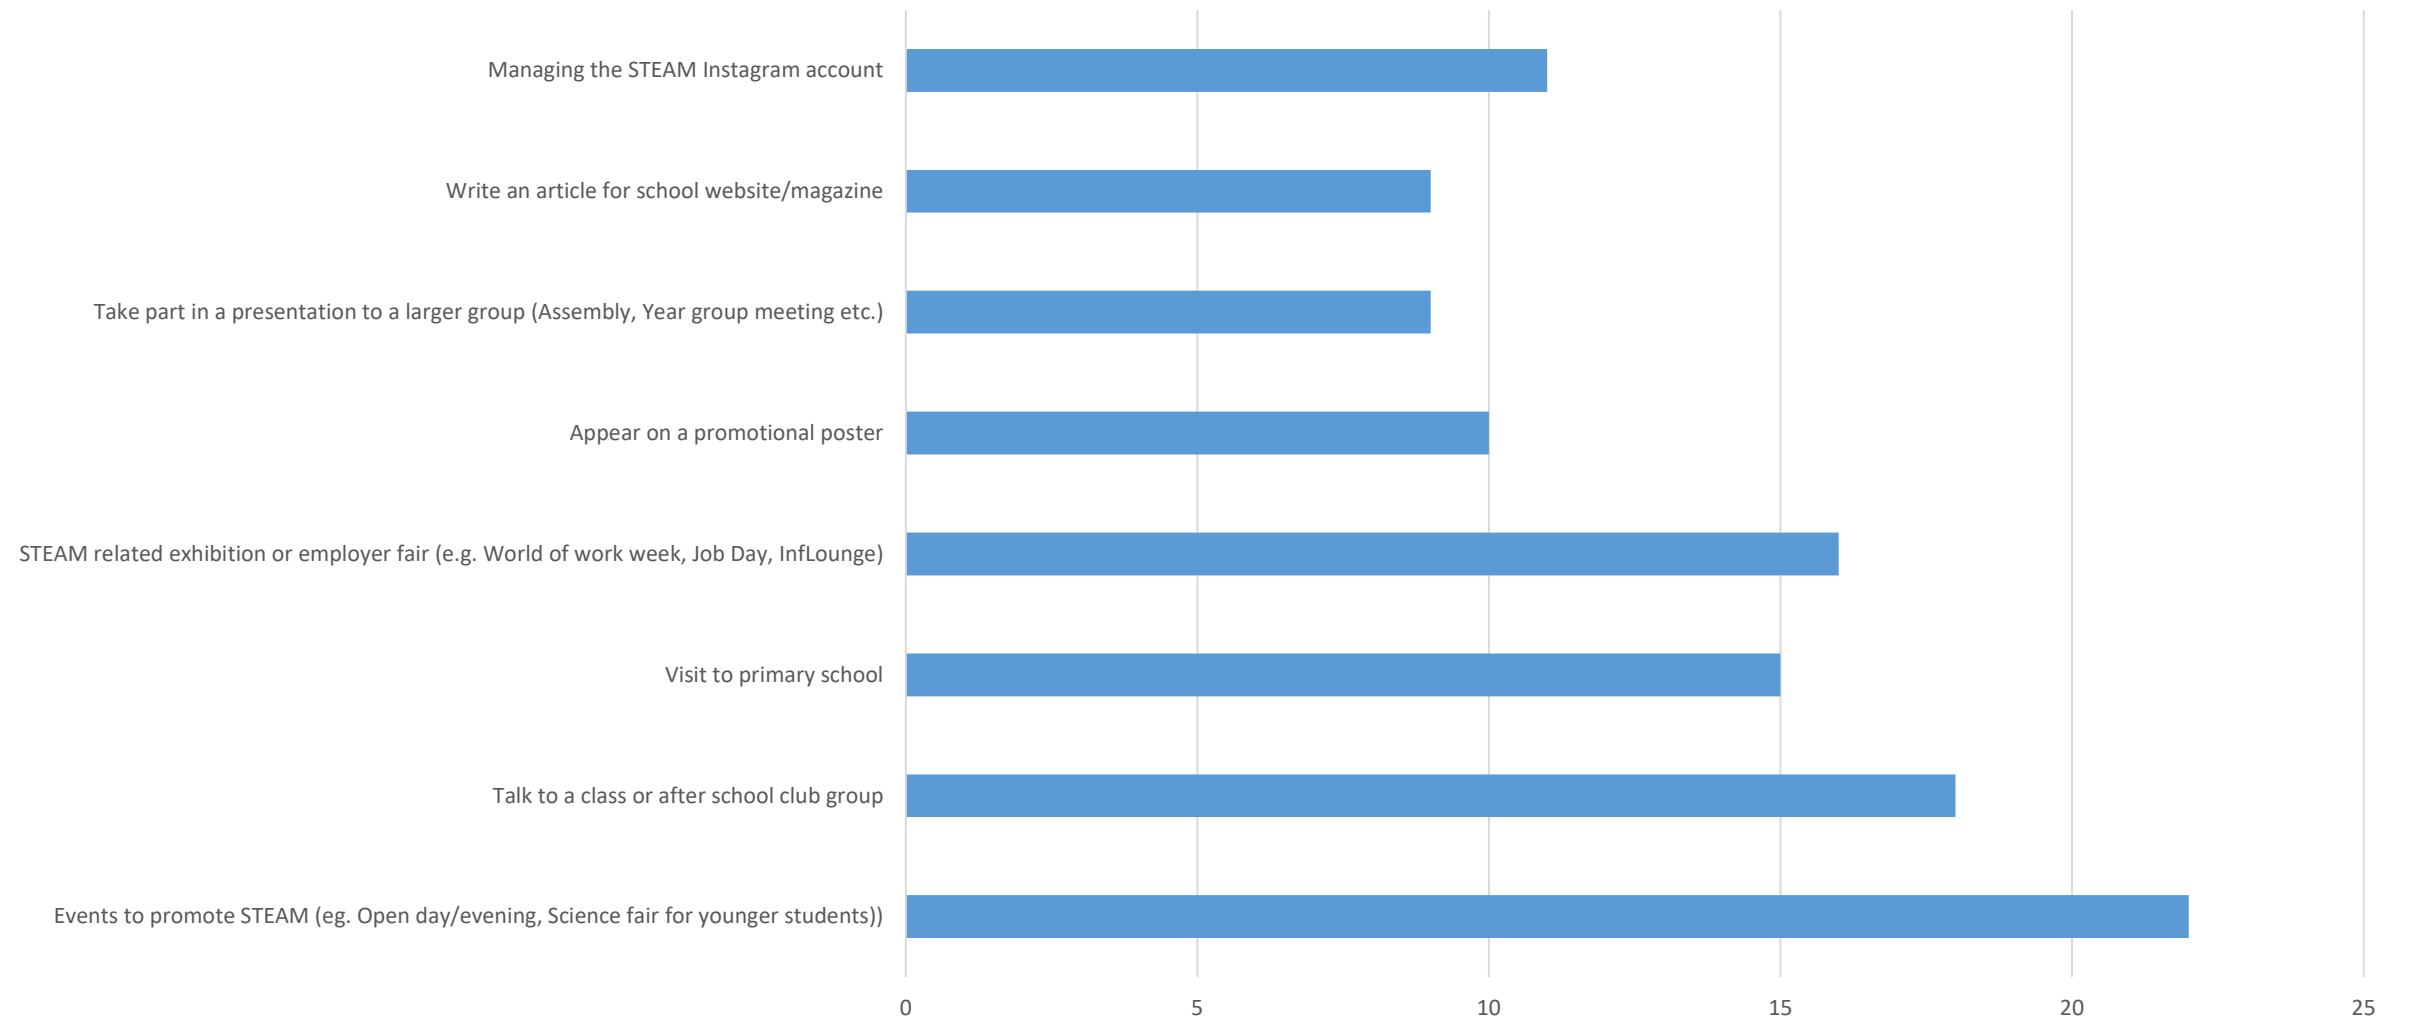

## Q10. Continued...Why were the trips to local places/events your favourite aspect?

- I enjoyed The job interview task + trip to the Raumfahrtzentrum
- Going to job fairs as I met a wide range of employers and businesses.
- The different trips as it was informative. I learnt a lot of new interesting information.
- I enjoyed visiting various engineering firms during the project to learn about jobs/careers

## Q10. Continued...Why was meeting new people your favourite aspect?

- Communicate with other people from different countries because their different culture showed me in some cases a new way of thinking which helps me sometimes to solve a problem in my everyday life.
- It was really interesting to get to know new people at school and from other countries.

Q11. As a STEAM ambassador, your role is/has been to promote STEAM to younger students. Which of the following would you consider taking part in next year to help to persuade more students study STEAM subjects?

# Any other comments you would like to make about the ERASMUS experience?

- Annoying that I couldn't go to England after the whole work (due to the pandemic)
- I was not allowed to take part in the exchange but still found the projects we did fantastic.
- I'm sorry that not everyone was able to do an exchange because it's such a great experience
- It should definitely continue also because of meeting other students from Europe interested in STEAM.
- its been amazing, thank you!!
- It was amazing and I wouldn't change any of it and I hope many more people get the opportunity to experience it
- I enjoyed it a lot and a bit sad that we can't go to Sheffield because I was really excited for it.
- It was enjoyable and educational and I'm glad I took part.
- I just would like to say thank you.
- At first you don't realize what this projects gives but afterwards you are just grateful about every experience and knowledge you made. So continue like that please!
- It was a truly brilliant experience that has given me opportunity that I otherwise wouldn't have such as the exchange and visits to different companies and people.
- I had a fantastic time with the group of people I was with.
