

These new strengthened Local Covid-alert levels (LCAL) of medium, high, very high, sometimes described as Tiers 1-3 replace the new national restrictions from midnight on Wednesday 2nd December 2020. They also replace previous Local Covid Alert Levels so please delete previous versions of this Can I? table and use the latest version (check date in header).

The new regulations are here:

Tiers (updated for 2nd Dec):

<https://www.gov.uk/guidance/local-restriction-tiers-what-you-need-to-know>

This table goes through the guidance for a number of questions “Can I?”... and gives a response of:

Yes - Green

Yes with caveats or restrictions - Amber

No - Red

There is separate guidance for support and childcare bubbles¹, which applies across all tiers.

Support bubbles have been expanded. From 2 December you can form a support bubble with another household if any of the following apply to you:

- you are the only adult in your household (any other members of the household having been under 18 on 12 June 2020) or are the only adult who does not have a disability that needs continuous care
- you have a child under 1

- you live with a child under 5 with a disability that needs continuous care

This table groups questions under thematic topic headings such as: socialising, work, sport and exercise. This is aimed to make it easier to find the answer. There is some repetition, but excessive cross referencing has been avoided.

This table is designed for ease of use. If in doubt, refer back to the original guidance, check government FAQs, seek further advice from specific websites such as those for specific diseases or conditions. Local opening of particular venues or service operation may differ from national advice so please check.

This table has been produced by the Office of the Director of Public Health Sheffield based on currently available (as of 02/12/2020) guidance. It will be updated as more guidance and clarification emerges. **Please note, these rules will be eased for a number of days over Christmas – please follow the different rules during this period for your Christmas linked households:**

<https://www.gov.uk/guidance/guidance-for-the-christmas-period>

1 Support Bubble: A support bubble is an exclusive close support network between two households. It means you can have close contact with that household as if they were members of your own. From 2 December, you can form a support bubble with another household, if at least one has:

- only one adult; (including a household where any children are under the age of 18)
- only one adult carer (i.e. living with any additional adult(s) in the household that have a disability and require continuous care);
- a child under 1 (regardless of how many other adults are in the household) ; or
- a child under 5 with a disability that requires continuous care (regardless of how many other adults are in the household)

2 Childcare Bubble: A childcare bubble is where one household links exclusively with one other household to provide informal childcare to a child or children aged 13 or under. They can provide the childcare in either or both of the homes from the 2 households.
