

The Upstream Project: Next Steps

Dear Parent/Guardian,

Following our previous letter regarding Meadowhead's participation in the Upstream Project, a survey was recently completed in class by our Year 9 students.

Your child's survey results indicated that some additional support might be beneficial for them. This could be to help them address challenges in school, at home, with their relationships or with their general wellbeing, or a combination of all of these.

Your child has said they would be interested in this offer, and so Upstream would like to begin some mentoring and offer wider support to them to give them the tools and skills to manage these challenges. Upstream also offers additional support to parents and families where this might be helpful.

In order for the Upstream team to be able to contact you directly about this offer, and answer any questions you might have, please fill in the attached form with your contact details. The allocated project worker will then be able to get in touch with you and explain more about the support.

Please complete this form as soon as possible [Upstream support – Fill in form](#)

Kind regards

The Upstream Team

In order to monitor progress and ensure that the highest level of support is provided, personal data will be held by the Upstream team at Roundabout, where relevant, in line with GDPR and data protection guidelines. For further information please refer to the [Roundabout Privacy Policy](#).
