

## Examination Preparation after Half term – 4<sup>th</sup> June onwards

Dear Year 11 student,

This document contains information about the arrangements at school during your examinations for the period of time after half term.

Each day is broken down, lesson-by-lesson, giving you the options available to you.

They are in priority order.

1. **Exams and warm ups** are the biggest priority. For morning exams you should be in registration for 8:35 and then you go to your 8:45 warm up. For afternoon exams, you are expected to be in school for the 12:10 warm ups. The warm up sessions are very important and will help you settle and be in the right frame of mind for your examinations.
2. **Recommended Revision Sessions** refer to subjects where you have not yet taken the final examination paper. You are encouraged to attend these at the normal time you would have these lessons with your normal teacher. You are not expected to attend these if you have an exam at that time or you have finished a subject.
3. **Independent Revision in the café** is an unsupervised place you can revise if you do not have an exam or a recommended revision session to attend. Please respect this area by not leaving litter or by causing disruption. It is a quiet area for revision, not a common room space.
4. **Off – Site Revision** is for those of you who do not have an examination and prefer to prepare for your examinations outside of the school grounds.

Please think carefully about how you use these extra freedoms. Remember we are here to support you so use the time sensibly to prepare for these last few examinations.

**Good luck and keep working hard.**
